Primary School**
**Teaching &
Learning Model**

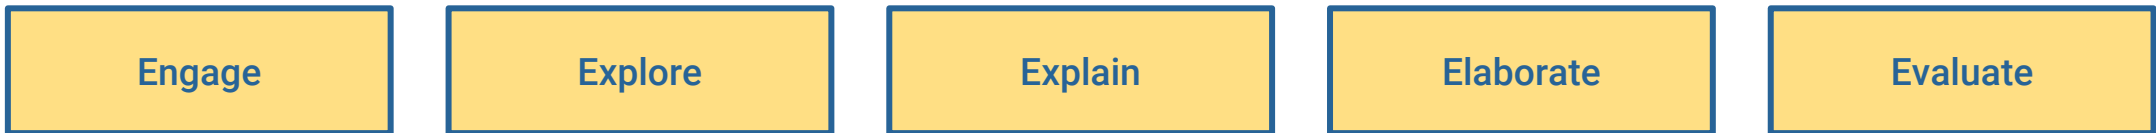

Vision for Learning

In a rapidly changing and technology rich world, we strive to provide **powerful, authentic learning experiences** for students. We will maintain our culture of **high expectation** whilst students actively engage in a multi and interdisciplinary learning context that breaks down barriers that have traditionally existed between classes and subjects. We will **empower** students to create and share ideas and solutions in local and global contexts, developing **creativity, character, communication, collaboration, critical thinking** and **citizenship**.

Practice Principles

<p>1. High expectations for every student promote intellectual engagement and self-awareness</p>	<p>2. A supportive and productive learning environment promotes inclusion and collaboration</p>	<p>3. Student voice, agency and leadership empower students and build school pride</p>	<p>4. Curriculum planning and implementation engages and challenges all students</p>	<p>5. Deep learning challenges students to construct and apply new knowledge</p>	<p>6. Rigorous assessment practices and feedback inform teaching and learning</p>	<p>7. Evidence based strategies drive professional practice improvement</p>	<p>8. Global citizenship is fostered through real world contexts for learning</p>	<p>9. Partnerships with parents and carers enhance student learning</p>
